# Learning Objectives

---

## Overall Conference Learning Objectives

At the end of this conference, participants will be able to

- Identify new developments in the field of sport and exercise medicine that will enhance the assessment, diagnostic skills and management of sport & exercise related health conditions and promote healthy active living.
- Recall advancements in cutting edge sport medicine research that will enhance patient management.
- Identify important healthcare, practice and legislative issues affecting sports medicine providers and patients.
- Identify opportunities for collaboration amongst sports medicine physicians and healthcare providers with a variety of interests and backgrounds.

# Sheraton Fallsview Hotel

---

*Sheraton Fallsview Hotel is a top-rated TripAdvisor GreenLeaders Certified Niagara Falls Hotel, adored by visitors from around the globe. From accommodations at a precise angle to offer the best views of Niagara Falls, to world-class dining & entertainment, all in a location that is close to all top attractions.*

# Pre and Post Conference Courses

---

**01** CASEM Basic Team Physician Course  
Sunday-Monday, May 26-27

**02** CASEM Emergency Sideline Course  
Tuesday, May 28

**03** CASEM/CCES Anti-Doping Update  
Tuesday, May 28

**04** CASEM Pediatric Sport Medicine Course  
Saturday, June 1

# Social

---

All social events are unaccredited. Don't miss the chance to connect with your CASEM colleagues in Niagara! Check out the social events below & register now to join the fun and connect with your peers!

## Welcome Reception

Tuesday, May 28

Help us kick off the conference with canapés and a glass of wine or beer in the exhibit hall.

5:00pm - 8:00pm

Drink ticket included with registration package!

## Lunchtime Student-Resident Networking Mixer

Wednesday, May 29

Join us in meeting your fellow SEM students and residents! Engage with program directors from across Canada who will be on hand to provide insights and answer any questions you may have about their SEM programs.

12:00pm - 1:30pm

## Wednesday Night Social at the Table Rock on the Falls

Wednesday, May 29

Experience the awe-inspiring beauty of Niagara Falls from the intimate vantage point of 'Table Rock on the Falls'. A true Niagara showcase! Includes transportation, locally inspired dinner, and a flight of Niagara wines.

6:30pm - 9:15pm

Finish the night with "CASEM-OMA's Got Talent - Open Mic Night!" followed by CASEM's Got Talent - Open Mic Night! To add your name to the lineup, please email [here](#).

# Social

---

All social events are unaccredited. Don't miss the chance to connect with your CASEM colleagues in Niagara! Check out the social events below & register now to join the fun and connect with your peers!

## Gala Dinner and Dance

 Thursday, May 30

 7:15pm - 1:00am

Come out and celebrate with your colleagues dressed up to the nines. Includes a 3 course dinner and wine followed by a magical evening with dancing featuring [DannyZZZZ](#), Entertainer, Hypnotist, Mentalist and Magician!

Danny has appeared on numerous major talent shows, including Canada's Got Talent and America's Got Talent Extreme!

## Charity Fun Run

 Friday, May 31

 7:30am - 8:00am

Experience Niagara Falls sights and sounds on foot! All the funds collected from this run will be donated to the charitable organization of Niagara Falls, [Project SHARE](#).

Project SHARE has been providing emergency food and support services to residents of Niagara Falls for more than 30 years

# Keynote Speakers

---

## **Bruny Surin**

Olympic Gold Medalist and Chef de Mission Team Canada for Paris 2024 Olympic Games

Bruny Surin was recently inducted into the Canadian Olympic Hall of Fame and by doing so, became the first athlete with Haitian roots to earn this prestigious honor. An athlete that was born in Cap-Haiti, and later immigrated to Montreal, Canada at the age of 7 with his parents and sisters. His achievements and accolades speak for themselves: At the 1996 Olympic Games in Atlanta he played an intricate role on one of Canada's proudest sports accomplishments alongside Donovan Bailey, Glenroy Gilbert, Robert Esmie and Carlton Chambers by winning the Olympic Gold Medal in the 4x100m relay.

## **Mike Wilkinson**

MD, Dip. Sport Med.

CMO for the Canadian Olympic Committee

Mike Wilkinson is a sports medicine physician and Assistant Clinical professor in Sports and Exercise Medicine at the University of British Columbia practicing in Vancouver. He qualified at the University of the Witwatersrand, Johannesburg, South Africa and has over 35 years experience providing medical care and coverage for athletes and sports events. He has worked long term as a team physician for Vancouver Canucks and Canadian Rugby. In addition to working as the team physician at multiple games he has served as the Chief Dr for the COC at the 2018 Winter Olympics. as well as CMO for the COC at the Pan-American Games in 2007 and 2019, Tokyo 2020 and the upcoming Paris 2024 Games.

# Keynote Speakers

---

## Jenna Schultz

PT, postdoctoral fellow  
John Sutton Memorial Lecture

Dr. Jenna Schulz is a practicing physiotherapist and postdoctoral fellow at Fowler Kennedy Sport Medicine Clinic, specializing in sport and pelvic health. She just completed one year as the first combined Sport PT and Postdoctoral Fellowship, where she was the lead physiotherapist for five varsity endurance teams at Western, while conducting research. Jenna is also a part-time instructor in the School of Kinesiology. As a former varsity cross-country and track and field athlete at Western, Jenna has a special interest in endurance athletes and female athletes, and her research focuses on postpartum return to sport and relative energy deficiency in sport.

## Melody Hrubes

MD, FACSM  
AMSSM Exchange Lecture

Dr. Hrubes is board certified in Physical Medicine and Rehabilitation as well as Sports Medicine and is the Director of the Primary Care Sports Division for Rothman Orthopaedics New York. She currently serves as lead medical for Breaking (USOPC), as Team Physician Coordinator for the United States Soccer Federation U17 Women's National Team, as the Medical Director for the Radio City Rockettes, and multiple Broadway shows. She has experience with broad-based musculoskeletal injuries with particular interest in injury prevention and biomechanical rehabilitation in athletes, performing artists, endurance sports, and female athletes. Dr. Hrubes serves on the Board of Directors for the American Medical Society for Sports Medicine and is President-elect of the Performing Arts Medicine Association. She is also an active member and serves on committees of the American College of Sports Medicine and International Association for Dance Medicine.

**\*Do you have an interesting sport medicine case that can be summed up in under 2 minutes using only 2 slides? Then we have an opportunity for you!** The 2024 committee will select the best of the bunch to ensure a rich and varied session filled with sport medicine clinical pearls to take back to your practices. Format is two (2) Slides in PowerPoint format in English or in French. Submissions or questions can be sent to [cpd@casem-acmse.org](mailto:cpd@casem-acmse.org).

## PODIUM PRESENTATIONS

### WEDNESDAY MAY 29, 2024

- 10:30am** Transforming Musculoskeletal Care for Albertans Using Standardized Clinical Decision-Making Pathways for Shoulder, Low Back, and Soft Tissue Knee Conditions
- **Ryan Shields, MSc, MD, Dip. Sport Med.**
- 10:45am** Novel Screening Protocol for Assessment of Hip Impingement in Adolescent Athletes: A Reliability Study
- **Maitland Martin, MSc**
- 11:00am** Acute and Chronic Injuries and Illnesses at the 2023 World Rowing Indoor Championships
- **Chloe Hewitt, MSc**
- 11:15am** Randomiz Target Trial Emulation to Assess the Effect of Changing Load on Injury Risk in Adolescent Ice-Hockey Players
- **Dana Jaclyn Hunter**

### THURSDAY MAY 30, 2024

- 10:30am** Step It Up to Level Up: After ACL Reconstruction, Do Individuals Reach Internationally Recommended Physical Activity Levels to Mitigate Risk of Post-Traumatic Osteoarthritis and How Do These Levels Compare to Healthy Controls? A Systematic Review and Meta-Analysis
- **Richard Magony, PhD**
- 10:45am** The Association Between On-Ice Skill Performance and Clinical Measures in Adolescent Ice Hockey Players
- **Kathryn J Schneider, PhD**
- 11:00am** Patient-Level Risk Factors for Long-Term Opioid Pharmacotherapy Among Patients Undergoing Anterior Cruciate Ligament Reconstruction and Repair: A Retrospective Cohort Study
- **Richard Roberts**
- 11:15am** The Clinical Utility of a Novel Multimodal Neurological Assessment Battery in Detecting Physiological Impairment in Athletes Sustaining an Acute Sport-Related Concussion
- **Jalena Bertagnolli**

### FRIDAY MAY 31, 2024

- 10:30am** Target Trial Emulation to Assess the Effect of Changing Load on Injury Risk in Adolescent Ice-Hockey Players
- **Chinchin Wang, PhD Candidate**
- 10:45am** A Retrospective Study of Shoulder Hydrodilatation Injection Followed by Immediate Physiotherapy (SHIP) for Frozen Shoulder. Does This Team Approach Improve Patients' Functional Outcomes and Pain Scores Compared to Usual Care
- **Terry DeFreitas, MD, Dip. Sport Med.**
- 11:00am** Long-term sustained benefits of Viscosupplementation with different molecular weight Intra-Articular Hyaluronic Acids in the treatment of Osteoarthritis of the Knee. HAV-OAK. A retrospective Indian Cohort study of more than 15 years
- **Anish Kumar Aggarwal**
- 11:15am** Long-Term Quality of Life and Clinical Outcomes of a Randomized Clinical Trial Comparing Patellar Tendon, Hamstring Tendon and Double-Bundle Hamstring ACL Reconstructions at 10-Years Post-Operatively
- **Nicholas Mohtadi, MD, Dip. Sport Med.**

# Unaccredited Lunchtime Symposia

*These luncheons are not accredited and may be sponsored by commercial interests.*

Wednesday

## Satellite Lunch Symposium “Quasi-Ted Talk”

 Great BC (main plenary)  
3rd floor

 **Wednesday, May 29**  
12:00pm - 1:30pm

Join us for a “quasi-Ted Talk” with a distinguished panel chaired by Dr. Mohit Bhandari along with Dr. Stephen French, who will be challenging the current status of hyaluronic acid (HA) injections in patients, Dr. Eugene Maida who will present an update on the benefits of HA on MSK patients, and featuring Dr. Femi Ayeni – president-elect of the COA – who will present results of the ECHO Study on ICS/HA injections into the hip – the first Cingal study of its kind worldwide. Sponsored by Pendopharm. [More information available here](#)

[REGISTER HERE](#)

## The Pursuit of Joint Preservation: Impact of Very High Molecular Weight (>10 kDa) and Delay Time to TKR

 Strategy Room 3  
5th floor

 **Wednesday, May 29**  
12:00pm - 1:30pm

As the incidence of OA continues to grow, with a rising trend observed among younger patients, physicians aim to prolong joint preservation, thereby postponing arthroplasty surgery. New research will be presented to illustrate the impact of Very High Molecular Weight HA compared to High Molecular Weight HA. Sponsored by Bauerfeind. [More information available here](#)

[REGISTER HERE](#)

# Unaccredited Lunchtime Symposia

---

*These luncheons are not accredited and may be sponsored by commercial interests.*

Thursday

## Medicus Pension Plan Lunchtime Symposium

 Strategy Room 1  
5th floor

 **Thursday, May 30**  
12:00pm - 1:30pm

Imagine joining a pension plan now that provides you with a predictable monthly income when you retire – for the rest of your life. In this session, learn about the Medicus Pension Plan, designed exclusively for Canada’s incorporated physicians. Sponsored by MD Financial. [More information available here](#)

[REGISTER HERE](#)

## Aptissen Academy - Innovation in Orthobiologics – The Intersection of PRP and HA in Sports Medicine

 Strategy Room 3  
5th floor

 **Thursday, May 30**  
12:00pm - 1:30pm

This luncheon includes two talks, Navigating the Viscosupplement Landscape: choosing the right product for your patients presented by Dr. Diego Astur followed by Mastering Combination Therapy: The synergistic power of PRP and HA in Sports Medicine presented by Dr. Nathan Thakur. Sponsored by MD Biologix.

[REGISTER HERE](#)

# AGMS & Meetings

---

*These are not accredited and may be sponsored by a commercial interest.*

## SEM AGM

 **Upper Fallsview A - 5th floor**

 Wednesday, May 29 | 12:00pm - 1:30pm

## Mental Health Meeting

 **Executive Boardroom - 5th floor**

 Wednesday, May 29 | 12:00pm - 1:30pm

## OMA Sport Med AGM

 **Great Room BC - 3rd floor**

 Thursday, May 30 | 12:00pm - 1:30pm

## AMA Sport Med AGM

 **Strategy room 5 - 5th floor**

 Thursday, May 30 | 12:00pm - 1:30pm

## Atlantic Provinces SEM Meeting

 **Strategy room 7 - 5th floor**

 Thursday, May 30 | 12:00pm - 1:30pm

# THANK YOU TO OUR SPONSORS

THIS PROGRAM HAS RECEIVED AN EDUCATIONAL GRANT OR IN-KIND SUPPORT FROM:

## DIAMOND

## PLATINUM

## GOLD

## SILVER

# SESSION LEARNING OBJECTIVES

## **Athlete Experience**

Upon completion of the conference, participants should be able to

- Recognize the impact of athletic training and performance on joint health, specifically focusing on the development and progression of osteoarthritis.
- Identify the role of exercise, physical therapy, and other rehabilitation approaches in managing osteoarthritis symptoms and improving functional outcomes for athletes.
- Identify the psychological and emotional impact of osteoarthritis on athletes, including coping strategies,

## **On the Field and Beyond: Latest Updates on Concussion in Sport**

Upon completion of the conference, participants should be able to

- Recognize differences in presentation and management of pediatric athletes with concussion compared with adults
- Employ concussion assessment tools for pediatric athletes
- Describe a return to learn strategy and academic supports that students may benefit from following concussion

## **Lance Richard Memorial Lecture**

Upon completion of the conference, participants should be able to

- Recognize the significant advancements in sports medicine technology and research that have influenced athletes' performance, health, and safety over time.
- Recognize the ethical considerations and challenges faced by sports medicine practitioners in balancing athlete health and performance enhancement.
- Analyze the role of sports medicine in addressing emerging issues and trends in sports, such as concussion management, mental health support, and gender equity in healthcare.

## **Breaking: Injuries Seen in the Sport**

Upon completion of the conference, participants should be able to

- Identify common types of injuries associated with breakdancing, including acute traumatic injuries and overuse injuries.
- List strategies for injury prevention in breakdancers, including proper warm-up and cooldown routines, strength and conditioning exercises, technique modification, and protective equipment use.
- Identify considerations for return to play and performance following a breakdancing injury, including gradual progression of activity, rehabilitation milestones, and injury recurrence prevention strategies.

## **Systematic Review vs Meta-Analysis**

Upon completion of the conference, participants should be able to

- Identify key strengths and limitations of a particular systematic review.
- Recognize when results are (not) likely to apply to an individual patient in the office.

## **Optimizing Exercise for Medical Treatment**

Upon completion of the conference, participants should be able to

- Identify key anatomical landmarks and structures of the foot and ankle that are assessed during the examination process.
- Identify special considerations for foot and ankle examinations in specific sports or athletic populations, such as dancers, runners, soccer players, and basketball players.
- List evidence-based treatment and rehabilitation strategies for managing foot and ankle injuries in athletes, including therapeutic exercises, manual therapy techniques, taping, bracing, and footwear recommendations.

# SESSION LEARNING OBJECTIVES

## **Tales, Tips and Tribulations of Travelling Team Docs**

Upon completion of the conference, participants should be able to

- List the roles and responsibilities of a travelling team doc.
- Identify the required and extensive preparation for medical coverage on team trips
- Propose comprehensive medical care while travelling.

## **Utilizing Concussion Management Tools**

Upon completion of the conference, participants should be able to

- Identify the role of baseline testing in concussion management and understand how to interpret baseline scores in the context of post-injury assessments.
- List best practices for adapting concussion management protocols, including return-to-play guidelines, academic accommodations, and activity modifications, to meet the unique needs of para athletes.
- Recognize the importance of individualized concussion management strategies tailored to the specific needs and abilities of individuals within the para population.

## **Next-Level RTP**

Upon completion of the conference, participants should be able to

- Utilize performance monitoring tools to track progress, identify potential issues, and adjust training as needed.
- Identify the key components of a comprehensive return-to-play protocol, including assessment tools and criteria.
- Recognize the importance of individualized management plans based on the nature and severity of the injury, athlete's medical history, and sport-specific demands.

## **Basic MSK Ultrasound Overview**

Upon completion of the conference, participants should be able to

- List the common uses of MSK Ultrasound in a Sports Medicine practice
- Identify the echo texture of muscle, bone, tendon and nerve on an MSK Ultrasound exam

## **Parsonage Turner Syndrome**

At the conclusion of this session, participants will be able to

- Identify presenting features of Parsonage Turner Syndrome, distinguish them from similar musculoskeletal conditions, and begin to formulate next steps in management plans of this condition.

## **Is it the ACL? Is it the meniscus? It's PVNS**

Upon completion of the conference, participants should be able to

- Recognize the typical nature of symptoms and patient demographics associated with pigmented villonodular synovitis (PVNS)
- Identify features suggestive of PVNS on diagnostic imaging and arthrocentesis
- Identify available treatment options for PVNS and chances of recurrence

## **Upper Limb DVT**

At the conclusion of this session, participants will be able to

- Identify an upper limb DVT in an athlete;
- Propose a management plan and follow up of upper limb DVT in athletes

# SESSION LEARNING OBJECTIVES

## **Post-Operative Scar Pain**

Upon completion of the conference, participants should be able to

- Recognize the prevalence of post-operative scar pain
- Assess post-op and traumatic scars
- Explore a treatment approach to scar release

## **Upper Extremity Compartment Syndrome**

At the conclusion of this activity, participants will be able to

- Identify and define the clinical characteristics of the condition of exertional compartment syndrome of the upper extremity.
- Predict it's incidence based on activity and mechanism.
- Evaluate and assess the athlete complaining of exertional forearm pain.

## **ACL and Female Athletes**

Upon completion of the conference, participants should be able to

- To enhance the knowledge and understanding of female athlete health considerations
- To discuss injury prevention strategies for female athletes
- To improve the knowledge of ACL injuries in female athletes

## **Mental Health Panel**

Upon completion of the conference, participants should be able to

- Recognize how to collaborate effectively with mental health professionals, coaches, athletic trainers, and other members of the sports medicine team to provide integrated care and support for athletes' mental health needs.
- Recognize the interplay between mental health and physical performance, including the potential effects of stress, anxiety, depression, and other mental health conditions on athletic performance and overall well-being.

## **Air Pollution and Sport**
